

Your MOT Certificate is changing

MOT

From October 2011 a new style of MOT Certificate will be introduced;

MOT Certificates and Failure notices will no longer be produced on pre-printed coloured forms but printed directly on plain paper in black ink. The new look certificates will also combine the test result and advisory information onto one page wherever possible. These changes are part of the Government's ongoing drive to reduce cost and wastage.

Existing certificates will continue to remain acceptable and legal during their validity period.

The new style of certificates supplement the MOT database and the information may be checked and verified against the electronic record at www.direct.gov.uk/yourmotcheck.

The diagram shows a sample MOT Test Certificate form. It is titled 'MOT Test Certificate' and features the VOSA logo. The form is divided into several sections:

- Vehicle details:** This section includes fields for MOT Test Number, Make, Model, Colour, Issuer's name, Signature of issuer, Expiry Date, and Additional Information.
- Vehicle & Operator Services Agency (VOSA) details:** This section includes fields for Odometer Reading, Vehicle Registration Mark, Vehicle Identification Number, and Test Class.
- Advisory Information:** This section is a large box on the right side of the form, intended for recording any advisory items.
- Additional information:** This section includes fields for Inspection Authority and Test Station.

Four blue arrows point from text labels to specific parts of the form: 'Vehicle details' points to the MOT Test Number field, 'Expiry date' points to the Expiry Date field, 'Additional information' points to the Inspection Authority field, and 'Advisory notice' points to the Advisory Information box.

More information on changes can be found at: www.direct.gov/mot or by calling the VOSA Contact Centre **0300 123 9000***

**Calls provided by BT are charged at a low rate. Charges from other providers may vary.*
